Intellectual Property Rights (IPR)

Establishment

Establishing an Intellectual Property Rights (IPR) cell in colleges is a strategic move to foster innovation and protect the intellectual property created within academic institutions. Here are some key points to consider when setting up an Intellectual Property Rights (IPR) cell in a college and it is crucial in academic institutions for several reasons. It plays a significant role in fostering innovation and facilitating commercialization.

An IPR cell encourages students and faculties to engage in creative and innovative activities by providing a structured environment for developing new ideas. It supports research initiatives by providing guidance and resources necessary for innovation. The cell ensures that intellectual property created within the institution is legally protected through patents, copyrights, trademarks and trade secrets. The IPR cell was established to provide the basic idea on IP management and to organize seminars, workshops for students and faculties to let them aware about the fundamental rights of IP. IPR cell intends to monitor the usage of college-owned intellectual property to ensure compliance with licensing agreements and prevent infringement. It ensures to take necessary legal actions against infringement of college-owned intellectual property rights whenever needed.

Composition

There is a functional IPR Cell consisting of the following members:

Chairperson: Dr. Subhash Biswas

Convenor: Mrs. Sukanya Mallik

Members: Mr. Debraj Howlader

Mr. Ashis Biswas

Dr. Runa Das Chaudhuri

Major aims of the Cell:

Aims of the IPR Cell

1. Awareness and Education:
Educate students and faculty members about fundamentals of intellectual property rights including patents, copyrights, trademarks and trade secrets by conducting seminars and workshops,
2. Innovation Support:
Encourage and support innovation and research among students and faculty.
3. Protection:
Assist in the protection of intellectual property generated within the institution and ensure the confidentiality of valuable information.
4. Commercialization:
Help in the commercialization of inventions and innovations by facilitating transfer of knowledge developed within the college.

Report of 2022-23

Plan of Action:

Proposal Development:

- ✚ Draft was made with detailed proposal outlining the objectives, benefits and activities of the IPR cell.
- ✚ Administrative Approval: To the college administration and governing bodies draft for approval was proposed.

Achievement of the Cell

The IPR cell successfully organized a state level seminar on 17.2.23 in collaboration with library cell. The main objective of this seminar was to introduce the students about some important concepts like patents, copyright and trademarks etc. The importance of copyright was discussed as it is an essential component of the modern educational experience. The seminar was arranged as the significance of intangible assets is increased day by day in global economy. The main purpose was to promote the knowledge of Intellectual property laws in India as well as international treaty procedures.

Resource Person: Dr. Partha Sarathi Das has more than 15 years of professional experience and is currently serving as Assistant Library & Information Officer at the National Library, Govt. of India, Ministry of Culture. He has published around 39 publications includes journal articles, conference paper and book chapters. Dr. Das is an International Network of Emerging Library Innovators India - Innovator and Mentor of South Asia, which is a global library leadership capacity building programme supported by the Global Libraries Initiative of the Bill & Melinda Gates Foundation.

Future Plans

- ✚ Providing efforts to harmonize IP laws and to stay updated with the changes
- ✚ Develop long-term strategies to manage college - owned intellectual property assets along with the strategies for IP creation, management and commercialization.
- ✚ Expand educational programs on digital copyright, open access and fair use principles to empower students and faculty in the digital age.
- ✚ Enhance cybersecurity to protect the digital assets developed in the college from online threats and unauthorized access.
- ✚ Implement advanced IP management software for identification, protection, valuation, and commercialization of IP.
